Dear Prof. Ioannis Pallikaris,

I am Professor in Textile Design at the University of Applied Sciences in Mönchengladbach in Germany and the supervisor of Kristina Lehmann, who is my student in Textile Design at the Faculty of Textile and Clothing Technology.

We would like to thank you for the opportunity you offer Kristina in Crete.

My focus in teaching and research is on weaving and I am very happy to learn about the Penelope Gandhi Project. I will support the work and research of Kristina and would like to cooperate with the University of Crete in the future.

I am looking forward for our cross-border collaboration and further contacts.

If you need any further information about us or Kristina's work please get in touch with me.

Best regards

Prof. Marion Ellwanger-Mohr
