

Dear Prof. Pallikaris,

On behalf of the Green Ideas team, I would like to thank you for the effort and time vested that made this workshop a success!

When planning an event such as this, it is imperative to gain the participation of experts in the field. Your willingness to share your time and expertise was critical to the success of the Green Ideas 2013!

We were fortunate to have you on board and share your unique professional experiences with us. Your presentation truly touched us all! The initiative of the University of Crete to found the University of Mountains, in order to fill in a power vacuum in the relationship between academia and society, should become an example of best practice for the rest of the Academic Institutions all over Greece.

Great interest has been expressed for the presentations of the workshop, both from the participants but also from colleagues that could not be there.

For more information, photos and videos of Green Ideas, please stay tuned at:
